

# Maze Runner

*Created By Swayam Sai Kar*

## Story :-

Once upon a time there was an advanced civilization .

One day, a deadly virus came and killed thousands of people living in that Civilization.

Some people survived in that disease.

One of the survivors was Thomas and his son , but his son was infected.

So , anyway he has to find the cure of this deadly virus to cure his son.

So some other people who survived , told Thomas,"Hey, Thomas there is one

**way to cure your son , but it's risky”**

**Thomas said : “What is that way ?”**

**Others said : “The Golden Idol ”**

**Thomas said to others: “I can take any  
kind of risks for my son !”**

**Others said to Thomas : “Best of luck  
Thomas ! , we will guide you on the way ”**

## **Rules :-**

**Others said to Thomas : “ remember :**

- Try to survive as long as you can !**
  - ◆ Try to collect more coins**
  - ◆ Some stupid creatures will come on  
your way**
  - ◆ You cannot kill them , So try not to  
touch them**
- The game is not too difficult not too**

easy

→ The game complexity increases as you play the game”

## Feedbacks :-

- On the way there are lots of sounds (the player has the option to also play a sound by pressing the “P” in the beginning) and to encourage the player to reach the Golden Idol.
- Score in the game (which increases as the player plays the game).

## Goals :-

- ❑ Reach The Golden Idol while

collecting as many coins as the player can and avoiding the obstacles along the way .

## Characters of the Game :-

1. Playing character - Thomas
2. Non playing characters - obstacles that appear in the game (using framecount).

## Balance :-

- Add stones (using Framecount)

## Adaptivity :-

- Making the obstacles and

ground move faster as the player plays the game and game progresses.

## Chance vs Skill :-

Chance :-

- Movement of obstacles
- Placement of coins

Skill :-

- Press “S” on the keyBoard to shoot the obstacles
- Skill of the player to jump before the obstacle touches the player.
